## CLASS

*Automobile aficionados are in their element in this exclusive club dedicated to motor car devotees. Abode2 spent a day in their world to find out more*

The Drivers and Business Club Munich opened their doors to their 380 members and guests in October 2019. It's a place that offers its automobile aficionado members a club home that is second to none. The club is located on Lilienthalallee

in Munich-Freimann just 15 minutes by car from the city centre and airport.

Club founder Andreas Dünkel (founder and owner of the Motorworld Group), Dr. Christoph Walther (founder of global consulting company, PE investor) and Xander

Heijnen (consultant, automotive and motorsport expert), have created a true gem that leaves nothing to be desired. On approximately 4,000 square metres – spread over two floors – members and guests are spoiled with a club restaurant, library, the Cigar aka 'Havanna Lounge', a selection of private dining rooms, four outdoor terraces, two roof terraces, event rooms and of course sufficient parking spaces directly in front of the main entrance. In the future, a wine cellar, private cinema and games room are also planned.

Members and guests with culinary interests are spoiled by

chef Tobias Frowein and his team at the Robata Grill, offering a comprehensive and inspirational menu.

The entire clubhouse reflects the love of the automobile. Five of the meeting rooms are furnished in the exclusive brand design of well-known automotive brands such as BMW, Pininfarina and Garage Italia (Lapo Elkann).

The member offering is complemented by exclusive events in the clubhouse such as art openings and wine tastings, as well as the club's presence at worldwide automotive events from Kitzbühel to Monte Carlo.
